**DISCUSSION ITEMS:**

**Master Esthetician Practical Exam**

The Board noted the original implementation date of the Master Esthetician Practical exam was scheduled for

January 1<sup>st</sup>, 2012. PSI had put together a conference call for all the schools and interested parties to be trained. This exam belongs to the National Interstate Council (NIC) and they needed to have time to give their approval or rejection of the training materials. The Conference Call from PSI for training is scheduled to be on December 19<sup>th</sup>, 2011. Anyone needing a pass code for the call may contact Sally Stewart, the Bureau Manager. The new implementation date for the Master Esthetician Practical exam will be February 15<sup>th</sup>, 2012. Applications for licensure that are received prior to February 15<sup>th</sup>, 2012, will have taken a passed the Basic Practical exam. Applications for licensure received on or after February 15<sup>th</sup>, 2012, will be required to have taken and passed the Master Practical exam. Simple kits will be requested by the testing agency. All other requirements are as they stand. The Candidate Information Bulletin (CIB) has the Master Esthetician Practical exam information on it. As previously decided the exam will be performed on mannequins. The Board noted that NIC does training for their raters once per year. Any rater who does not pass the training is not used.

### **Proprietary Right of Licensure**

The Board discussed an item that came up during a citation hearing. Within the cosmetology (and associated professions) act there is not a provision or a section that says if you are not licensed you cannot call yourself an Esthetician. There are other professions that have a Proprietary Right of Licensure section, meaning in those professions if you are not licensed as a Massage Therapist (for example), you cannot call yourself a Massage Therapist. The Board discussed that it would be a statutory change to put a Proprietary Right of Licensure in the law. The Board discussed that right now a Plastic Surgeon (for example) can hire an unlicensed individual, have her doing Esthetic procedures and call her an Esthetician.

### **Limited licensure**

Crystal Mitchell and Lyndsey Lee addressed the Board. They have a business (Signature Brides) where they go to the location of the event and do hair styling and makeup for weddings. Crystal Mitchell is a Utah licensed cosmetologist/barber. She has applied for an instructor license. She would like to be able to apprentice someone giving training for only parts of the cosmetology program, the parts she uses in her business and getting

**Limited Licensure (continued)**

something like a partial license. The Board discussed that the Legislature would have to make that kind of a change. The Board discussed if they did something like that the profession may see a myriad of specialized licenses be requested. The Board informed them any change like that would have to be legislative. Ms. Mitchell and Ms. Lee could check with the schools and talk with them about how many hours of school they would suggest and where it could fit into their curriculums. Another suggested possibility for support or information could be the School Owners Association. The School Owners Association has a powerful lobbying group. Ms. Mitchell and Ms. Lee stated they would like to see a separate license for just hairstyling. The Board discussed how DOPL must remain neutral to administer the laws and rules that have been made.

**Chiropractic Physician Request**

The Chiropractic Physicians would like the Cosmetology (and associated professions) Board to open their Practice Act Rule and allow Chiropractic Physicians to be supervisors to Master Estheticians who may do all the modalities that are within their scope of practice, to include chemical acid peels, microdermabrasion, operating lasers and etc. The Board discussed their concern with regard to public safety stating the laser is a class 4 medical device. That means it can burn, and burn badly, to the point of disfigurement. If the Rule allows Chiropractic Physicians to supervise Master Estheticians then a doctor could hire a receptionist to supervise or to run that laser. The Board members are aware of this situation already having happened. The Board also voiced a concern of training getting diluted. The Board discussed how Chiropractic Physicians can only offer first aid to a laser burn patient. They can treat with holistic and natural remedies but they do not have prescriptive rights for antibiotics or antiseptics. The Board determined Chiropractic Physicians may be unable to treat possible burn conditions. The Board has some additional questions and stated the Chiropractic Physicians should accompany their request. The Board, having discussed the supervision and related issues, have decided to table this discussion until the Chiropractic Physicians Board representative requests to come to their Board meeting.

**Memorandum of Understanding and  
Order Offer/ Denial for Barbara Benton**

Ms. Benton and her attorney appeared to the Board to discuss the Memorandum of Understanding and Order

#### NIC Conference in August

that had been offered to Ms. Benton. The attorney stated he felt that some of the terms and conditions were a bit excessive, especially considering how long ago the offense occurred. Ms. Benton stated repeatedly she has paid her debt to society. The Board explained criminal probation and administrative probation are different. The Board noted when the Division offers a Memorandum of Understanding and Order it must use the conviction date. The Board discussed her Memorandum of Understanding and Order offer with her. Ms. Benton noted the terms and conditions didn't sound so excessive verbally as it had seemed to her in written form. Ms. Niebuhr made a motion, seconded by Ms. Frasier, to change the offered duration on her Memorandum of Understanding and Order from 2 years to 18 months. The voting was unanimous.

The Board discussed the plans for the conference. The Board noted the things that would need to be done to host the NIC conference. Ms. Frasier noted the boy scouts in her area are willing to come to Little America Sunday morning to present the colors. The Board discussed a speaker was still needed to greet the conference guest and they are still working on the bus trip to Park City. Ms. Frasier stated people that hear about the conference are eagerly looking forward to the event. The Board noted there is still a lot of work to be done to complete the conference plans. She requested the Board member could think of topics that might be of interest to the NIC Board for conferences. Ms. Frasier would like to have everyone's participation to make this everyone's conference. The Board discussed the due date for recipes for the cook book will be due by July 1st to make sure there is time for the printing. The Board will discuss more on this topic at the next Board meeting.
